EDUCATION

VO THI SAU HIGH SCHOOL | City, Vietnam

Sep 2020 - Jun 2023

- GPA: 9.4 / 10
- Graduated Score: 25.55 / 30

TON DUC THANG UNIVERSITY | City, Vietnam

Aug 2023 - Present

Bachelor of Computer Science | Expected Graduation: June/2027

- GPA: 7.62/10.0 (Recent Semester: 8.21/10.0)
- Coursework: Object-Oriented Programming, Data Structures & Algorithms, Introduction to AI, Software Engineering.

GAME DEVELOPMENT EXPERIENCE

AI AStar with Pacman | Independent Project

January 2025 - March 2025

- Developed a pathfinding simulation in Python using the A* Search Algorithm, featuring a custom heuristic and pre-computed distance matrices to optimize autonomous navigation toward multiple targets.
- Engineered advanced state-space logic to handle specialized game mechanics, including teleportation between map corners and a power-up system that enables temporary wall-passing capabilities.

Escape The Belt: 2D Space Survival | Independent Project

February 2026 - March 2026

- Developed a physics-based survival game in Unity using C# to manage distinct behaviors for the player controller and environmental hazards.
- Implemented a dynamic spawning system that adjusts difficulty by calculating player progress and scaling obstacle frequency through linear interpolation logic.

SOFTWARE DEVELOPMENT EXPERIENCE

Tenant Management Platform | Project Manager & Tester

September 2025 - December 2025

- Orchestrated project workflows using Agile/Scrum methodologies, managing Sprints, task allocations, and cross-functional communication to ensure on-time delivery of a full-stack management system.
- Developed and executed comprehensive test plans, including functional and integration testing, to identify critical bugs and ensure the platform's reliability across landlord and tenant modules.
